-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 25 November 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-12 and 14-29 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☒ Claim(s) 1-12, 14-16 and 25 is/are allowed.
- 6) ☒ Claim(s) 17-24 and 26-29 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. _____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).
- * See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. **Claims 17-19, 21-24 and 26-28** are rejected under 35 U.S.C. 102(b) as being anticipated by Walz et al. (US # 5,325,303).

With respect to **claims 17 and 26**, Walz et al. teach a continuous form of labels or a roll of labels comprising an elongate carrier (30) having a longer length and a narrow width (see Fig. 2), a plurality of pre-printed label sets (34) on the elongate carrier, each pre-printed label set comprising a label body (44) and a leader (60), with the leader located in front of the label body along the length of the elongate carrier (see Fig. 2), wherein each label body and leader bears the same unique serial number (see Fig. 2 and cols. 5-6 of Walz et al.)

With respect to the recitation of “*for further printing with postage indicia*” and “*for further printing with value bearing indicia*” in the preamble of claims 17 and 26, the above recitation is for intended use only and also the scope of claims 17 and 26 are mainly focused on the structures of the pre-printed label sets and the body of the claim language does not refer back any thing that related to the “printing with postage indicia” or “printing with value bearing indicia”. Therefore, the Examiner does not give a patentable weight for these recitations.

With respect to **claims 18 and 27**, see Fig. 2 of Walz et al. that teach the leader (60) of each label set is adjacent to its respective label body (44).

With respect to **claims 19 and 28**, see Fig. 2 of Walz et al. that teach the serial number is located horizontally on the leader, and the serial number is located vertically on the label body.

With respect to **claim 21**, see Fig. 2 of Walz et al. that teach the leader (60) is divided into a serial number bearing portion (61) and a supplemental information bearing portion (62)

With respect to **claim 22**, see Fig. 2 of Walz et al. that teach the label bodies (44) are releasably attached to the elongate carrier.

With respect to **claim 23**, see Fig. 2 of Walz et al. that teach the leaders (60) comprise labels which are releasably attached to the elongate carrier.

With respect to **claim 24**, see Fig. 2 of Walz et al. that teach the leaders (60) comprise areas of the carrier upon which are directly printed the serial numbers (61).

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. **Claims 20 and 29** are rejected under 35 U.S.C. 103(a) as being unpatentable over Walz et al. as applied to claims 17-19, 21-24 and 26-28 above.

With respect to **claims 20 and 29**, Walz et al. teach a continuous form of labels or a roll of labels comprising the serial number (61) is located horizontally on the leader (60), and the serial number (67) is located vertically on the label body (44) (see Fig. 2 of Walz et al.)

Walz et al. teach all the claimed invention except for the recitation of *"the serial number is located horizontally on both the leader portion and the label body."* I would have been obvious to one having skill in the art at the time the invention was made to modify the label sets of Walz et al. to include the serial number is located horizontally on both the leader portion and the label body, since it has been held that rearranging parts of an invention involves only routine skill in the art. In re Japikse, 86 USPQ 70. the above modification is for the advantage of allowing the user to easily to comparing and confirming the serial number between the leader portion and the label body portion.

Allowable Subject Matter

5. Claims 1-12, 14-16 and 25 are allowed.

Response to Remarks

6. Applicant's arguments filed November 25, 2005 have been fully considered but they are not persuasive.

The Applicant's argument center around that the currently made amendments to independent claims 17 and 26 is distinguish over the Walz et al. patents, because independent claims 17 and 26 is amend to include the limitation that the elongate carrier

has *“a longer length and a narrow width”* and *“the leader located in front of the label body along the length of the elongate carrier”*.

The Examiner respectfully disagrees with Applicant's opinion because as clearly shows in Fig. 2 of Walz et al. patent that the an elongate carrier (30) has a longer length an a narrow width and the leader portion (60) of the label located in front of the label body (44) along the length of the elongate carrier (30), see Fig. 2 (right side) of Walz et al. that shows the leader portion (60) position along the length of the elongate carrier (30). In view of the Examiner's opinion the above teaching of Walz et al. clearly meet the broad recitation of *“the leader located in front of the label body along the length of the elongate carrier”* as recited in independent claims 17 and 26.

7. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Minh H. Chau whose telephone number is (571) 272-2156. The examiner can normally be reached on M - TH 9:30AM - 8:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Andrew H. Hirshfeld can be reached on (571) 272-2168. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
